SUMMARY

I am an aspiring Java Developer with a solid foundation in Core Java, Object-Oriented Programming, and software development principles. I am skilled in building Java-based applications, focusing on clean, maintainable code and efficient problem-solving. Eager to grow in backend development, I aim to contribute to collaborative, high performing teams

EDUCATION

2021 - 2025	B.Tech Computer Engineering at RTMNU, Nagpur	(CGPA: 7.48/10)
2019 - 2021	HSC at MSBSHSE , Pune	(Percent: 89.17)
2017 - 2019	SSC at MSBSHSE , Pune	(Percent: 82.80)

TECHNICAL SKILLS

Programming Languages:	Java, Java 8+,Spring Core,Spring Boot,Microservices,SQL, PL/SQL.
Web Technologies:	HTML, CSS, JavaScript
Databases:	Oracle, MySQL.
Tools:	Eclipse, STS, IntelliJ, Maven, Git, SQL Plus.

PROJECTS

1. Online Electronic Store – Full Stack Web Application

- Developed a web application for managing product listings, user registrations, and purchases.
- Implemented backend modules using **Core Java, Servlets, JSP, JDBC** with secure session.
- Designed database schema in **Oracle**, including tables for users, products, orders, and transactions.
- Built responsive UI using **HTML, CSS, JavaScript, and Bootstrap** to enhance user experience.
- *Technology Used : Java, JSP, JDBC, Oracle*

2. SecureBank – Online Banking Management System

- Developed secure banking including User login, account management, transfer, and transactions.
- Implemented authentication, sessions, and data validation using Servlets, JSP, and HTTPS concepts.
- Designed and managed Oracle DB tables for customers, accounts, transactions, and loan details.
- Built responsive UI using HTML, CSS, JS, and Bootstrap to improve usability and navigation.
- *Technology Used : Java, Servlets, JSP, JDBC, Oracle DB*

CERTIFICATIONS

- Certification in Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Certification in TCS iON Career Edge– Young Professional program by TCS.
